TSX-V: NEV

NEVADA SUNRISE COMPLETES PURCHASE OF PATENTED LODGE CLAIMS AT GOLDEN ARROW

On January 15, 2009, Nevada Sunrise Gold Corporation (TSX-V: NEV) through its wholly owned subsidiary, Intor Resources Corporation (Intor), made its final payment on two blocks of patented lode mining claims inside its Golden Arrow Project area located in Nye County, Nevada. The patented claims make up two blocks of land with a combined area of approximately 245.9 acres (approximately 99.5 hectares).

The north block comprising an area of approximately 109.1 acres (approximately 44.1 hectares) is a core area that management considers crucial for any future plans to mine the Gold Coin resource zone. The south block comprising an area of approximately 136.9 acres (approximately 55.4 hectares) lies over the Page fault, a prominent geologic feature on the property known for its historic gold and silver production. Within its Golden Arrow Project, Nevada Sunrise controls a total of approximately 5,684 acres (2,300 hectares) of mineral rights including 279 unpatented lode mining claims and the recently purchased 17 patented mining claims.

Gold was first discovered at Golden Arrow in 1905 and by 1917, gold was being mined from high-grade gold-quartz veins and fault breccia bodies from several shafts up to 500 feet deep. CEO Bill Henderson noted, "The two patented claim blocks were the focal point of historic production at Golden Arrow, but have seen little exploration since the early 1930s. We now own nearly 250 acres of private land in the center of the Golden Arrow Project. These acres constitute high priority exploration areas on the property."

On March 12, 2008, Intor entered into an agreement with Clogau (Nevada) Inc. that provided for the purchase of 17 patented lode mining claims. This agreement acknowledged payment of US\$900,000 by Intor and its predecessor companies. Intor also entered into a promissory note for payments totaling US\$600,000. The final payment on the promissory note was made on January 15, 2009. The total amount paid for the 17 patented lode claims was US\$1,500,000.
