The accompanying notes are an integral part of these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

FOR THE THREE MONTH PERIOD ENDED DECEMBER 31, 2010

#### 1. NATURE AND CONTINUANCE OF OPERATIONS

Nevada Sunrise Gold Corporation (the "Company") was incorporated under the laws of British Columbia on April 3, 2007. On May 15, 2007 the Company acquired of all of the issued and outstanding shares of Intor Resources Corporation ("Intor") by way of reverse takeover. Intor was incorporated under the laws of the State of Nevada on September 7, 2004 as Nevada Sunrise Exploration Limited. The name of that company was changed to Intor Resources Corporation in February, 2005. The Company's principal business activities include the acquisition, exploration and development of mineral properties.

The Company filed a prospectus on June 25, 2008, and an amendment to this prospectus on August 22, 2008, in connection with an initial public offering. On September 18, 2008, the Company closed its initial public offering and began trading on September 22 on the TSX-V using the symbol NEV.

The Company is in the process of exploring and developing its mineral properties. The recoverability of the amounts shown for mineral properties are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production.

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. Continued operations of the Company are dependent on the Company's ability to receive continued financial support, complete public equity financings, or generate profitable operations in the future.

There can be no assurance that the Company will be able to continue to raise funds in which case the Company may be unable to meet its obligations. Should the Company be unable to realize on its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the balance sheets. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

The current market conditions and volatility increase the uncertainty of the Company's ability to continue as a going concern given the need to both curtail expenditures and to raise additional funds. The Company is experiencing, and has experienced, negative operating cash flows. The Company will continue to search for new or alternate sources of financing but anticipates that the current market conditions may impact the ability to source such funds.

## 2. SIGNIFICANT ACCOUNTING POLICIES

The unaudited interim consolidated financial statements are presented in Canadian dollars and have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for audited financial statements. In the opinion of management, all adjustments (consisting of normal and recurring accruals) considered necessary for fair presentation have been included. Operating results for the three month period ended December 31, 2010 are not necessarily indicative of the results that may be expected for the year ended September 30, 2011.

The interim consolidated financial statements have been prepared by management in accordance with the accounting policies described in the Company's annual consolidated financial statements for the year ended September 30, 2010. For further information, refer to the consolidated financial statements and footnotes thereto included for the year ended September 30, 2010.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

FOR THE THREE MONTH PERIOD ENDED DECEMBER 31, 2010

#### 2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

**Future Accounting Changes** 

Business combinations (Section 1582)

In January 2009, the CICA issued Section 1582 "Business Combinations" to replace Section 1581. Prospective application of the standard is effective for fiscal years beginning on or after January 1, 2011, with early adoption permitted. This new standard effectively harmonizes the business combinations standard under Canadian GAAP with International Financial Reporting Standards. The new standard revises guidance on the determination of the carrying amount of the assets acquired and liabilities assumed, goodwill and accounting for non-controlling interests at the time of a business combination. The Company does not expect the adoption of this section to have a significant effect on its financial statements.

Consolidated financial statements (Section 1601) and non-controlling interests (Section 1602)

The CICA concurrently issued Section 1601 "Consolidated Financial Statements" and Section 1602 "Non-Controlling Interests" which replace Section 1600 "Consolidated Financial Statements." Section 1601 provides revised guidance on the preparation of consolidated financial statements and Section 1602 addresses accounting for non-controlling interests in consolidated financial statements subsequent to a business combination. These standards are effective January 1, 2011, unless they are early adopted at the same time as Section 1582 "Business Combinations." The Company does not expect the adoption of this section to have a significant effect on its financial statements.

International financial reporting standards ("IFRS")

The CICA has adopted a strategic plan whereby the Canadian accounting standards will be converged with International Financial Reporting Standards (IFRS) with the requirement to report under the new standards for fiscal years commencing in 2011. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date for the Company of October 1, 2010 will require the restatement for comparative purposes of amounts reported by the Company for the year ended September 30, 2011. At this time, the most significant impacts appear to be related to potential reclamation and closure obligations, the calculation of stock-based compensation and, the accounting for future business combinations. The resulting effect on the Company's consolidated financial statements has not yet been determined, however the Company does anticipate increased note disclosure.

#### 3. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. In the management of capital, the Company includes cash and components of shareholders' equity.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the three months ended December 31, 2010. The Company is not subject to externally imposed capital requirements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

FOR THE THREE MONTH PERIOD ENDED DECEMBER 31, 2010

#### 4. FINANCIAL INSTRUMENTS

The fair value of the Company's other current assets, accounts payable, and accrued liabilities, note payable, convertible note payable, loan payable to shareholder and due to related parties approximate carrying value, which is the amount recorded on the consolidated balance sheet. The Company's other financial instrument, cash, under the fair value hierarchy is based on level one quoted prices in active markets for identical assets or liabilities.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with counterparty's inability to fulfill its payment obligations. The Company's believes it has no significant credit risk.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at December 31, 2010, the Company had a cash balance of \$405,352 (September 30, 2010 - \$62,680) to settle current liabilities of \$543,912 (September 30, 2010 - \$668,101). The Company is actively searching for new sources of financing which would assure continuation of the Company's operations and exploration programs; however there can be no assurance that the Company's efforts will be successful.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

#### a) Interest rate risk

The Company has cash balances and an interest-bearing convertible note payable. The interest charged on the notes is at fixed rates, and the Company is not at a significant risk to fluctuating interest rates. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions or short-term debt instruments issued by the federal government. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. As of December 31, 2010, the Company did not have any investments in investment-grade short-term deposit certificates or short-term debt issued by the federal government.

## b) Foreign currency risk

The Company is exposed to foreign currency risk on fluctuations related to cash and accounts payable and accrued liabilities that are denominated in US Dollars (US).

## c) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

Sensitivity Analysis

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

FOR THE THREE MONTH PERIOD ENDED DECEMBER 31, 2010

## **4. FINANCIAL INSTRUMENTS** (cont'd)

The carrying amount of cash, accounts payable and accrued liabilities, loan payable to shareholder, note payable, and due to related parties approximates their fair value due to their short term nature. The Company does not have any deposits with fixed interest rates.

The Company operates in the United States and is exposed to risk from changes in the US dollar. A 10% fluctuation in the US dollar against the Canadian dollar would affect net loss for the period by approximately \$37,000.

#### 6. MINERAL PROPERTIES

Title to mineral property interests involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous historical title conveyance characteristic of many mineral claims. The Company has investigated title to all of its mineral property interests and, to the best of its knowledge, title to all of its interests are in good standing. The mineral property interests in which the Company has committed to earn an interest are located in the United States.

#### Golden Arrow, Nevada

The Company has a mining lease covering the Golden Arrow property. The mining lease, which requires annual lease payments of US\$50,000, is set to expire in December 2016. However, the Company may extend the mining lease for additional one year terms by paying escalating annual lease payments.

Effective March 2010, the Company entered into an agreement with Animas Resources Ltd ("Animas"), whereby the Company agreed to grant Animas an option to acquire a 51% interest in the Golden Arrow property. Animas may exercise this option by spending \$3,500,000 in exploration expenditures including all annual property maintenance fees, advance royalty payments and lease payments within three years. Per the agreement, certain obligations, including the amount of expenditures related to the 2010 targeting and drilling program must have been achieved during the 2010 calendar year. The Company has notified Animas that the agreed upon obligations have not been met. Upon earning 51% interest in Golden Arrow, Animas and the Company will form a joint venture for further exploration work on the property and Animas will be granted an option to earn an additional 9% interest (for a total interest of 60%) by spending \$4,000,000 in exploration expenditures within 5 years from the date Animas provides notice of its intent to proceed with the second option, provided that Animas must provide such notice within 120 days of the exercise of the first option. Once Animas has earned a 60% interest in the property, and if the Company elects not to participate in the funding of a pre-feasibility study, Animas may earn an additional 15% interest (for a total of 75%) by completing and paying for a pre-feasibility study for the property.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

FOR THE THREE MONTH PERIOD ENDED DECEMBER 31, 2010

#### **6. MINERAL PROPERTIES** (cont'd...)

#### Iron Point, Juniper and Kinsley Mountain, Nevada

The Company has mining lease agreements with a related party for each of three properties: Iron Point, Juniper and Kinsley Mountain. The Iron Point and Juniper agreements include a net smelter royalty on production of 2% while the Kinsley Mountain agreement has a sliding scale net smelter royalty rate on production from 2% to 5% depending on the price of gold. Each lease expires in 2017 and requires an annual advance minimum royalty. The annual advance minimum royalty for each property is US\$100,000 in 2011 and all years thereafter. The Company has the right to terminate each lease with the related party with thirty days written notice.

Effective March 2010, the Company entered into an agreement with Animas Resources Ltd ("Animas"), whereby the Company agreed to grant Animas an option to acquire a 51% interest in the Kinsley Mountain property. Animas may exercise this option by spending \$1,500,000 in exploration expenditures including all annual property maintenance fees, advance royalty payments and lease payments within three years. As specified in the agreement, \$200,000, of the \$1,500,000 in exploration expenditures occurred during the 2010 calendar year. Upon earning 51% interest in Kinsley Mountain property, Animas and the Company will form a joint venture for further exploration work on the property and Animas will be granted an option to earn an additional 14% interest (for a total interest of 65%) by spending \$3,000,000 in exploration expenditures within 5 years from the date Animas provides notice of its intent to proceed with the second option, provided that Animas must provide such notice within 120 days of the exercise of the first option. Once Animas has earned a 65% interest in the property, and if the Company elects not to participate in the funding of a pre-feasibility study, Animas may earn an additional 10% interest (for a total of 75%) by completing and paying for a pre-feasibility study for the property.

## 7. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Comprehensive income (loss) is the change in shareholder equity during a period from transactions and other events from non-owner sources. The Company includes the account "accumulated other comprehensive income (loss)" in the shareholders' equity section of the consolidated balance sheet.

Accumulated other comprehensive income (loss) is comprised of the following:

Balance as at September 30, 2009 Cumulative translation adjustment	\$	70,296 (72,916)
Balance as at September 30, 2010 Cumulative translation adjustment	_	(2,620) (61,891)
Balance as at December 31, 2010	\$	(64,511)

Balance as at December 31, 2010	50,449,843	\$	7,118,057	\$	667,274

In December 2010, the Company closed a non-brokered private placement consisting of 2,000,000 Units at a price of \$0.20 per Unit, yielding the Company gross proceeds of \$400,000. Each Unit consists of one common share of the Company and one common share purchase warrant. Each common share purchase warrant will be exercisable to purchase an additional common share at a price of \$0.30 until December 3, 2012, subject to acceleration on 30-days notice if, on any day on or after April 4, 2011 and before the expiry date of the Warrants, the Company's common shares trade at a price greater than \$0.50 for a period of 10 or more trading days. All shares and warrants issued pursuant to the offering are subject to a four-month hold period.

Between October 1, 2010 and December 31, 2010, a total of 2,363,334 warrants were exercised at a price of \$0.15 per warrant, yielding the Company \$354,500. Of these proceeds, \$45,000 was received in September 2010 and therefore was included in Subscriptions received in advance at September 30, 2010.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

FOR THE THREE MONTH PERIOD ENDED DECEMBER 31, 2010

#### 8. SHARE CAPITAL AND CONTRIBUTED SURPLUS (cont'd...)

### c) Warrants

Warrant transactions and the number of warrants outstanding are summarized as follows:

	Number of Warrants	Weighted Average Exercise Price
Balance as at September 30, 2009	6,300,000	\$ 0.30
Warrants issued	7,180,654	\$ 0.19
Warrants expired	(6,300,000)	\$ 0.30
Warrants exercised	(170,000)	\$ 0.15
Balance as at September 30, 2010	7,010,654	\$ 0.20
Warrants issued	2,000,000	\$ 0.30
Warrants expired	(1,466,666)	\$ 0.15
Warrants exercised	(2,363,334)	\$ 0.15
Balance as at December 31, 2010	5,180,654	\$ 0.27

At December 31, 2010, warrants were outstanding enabling holders to acquire shares as follows:

Number of Shares	Exercise Price	Expiry Date	
2,153,490 (1)	0.25	March 31, 2011	
1,027,164 (2)	0.25	April 29, 2011	
2,000,000	\$ 0.30	December 3, 2012	

- (1) Includes 179,199 finders' warrants
- (2) Includes 11,690 finders' warrants

### d) Options

The Company has a stock option plan whereby it may grant options to employees, directors, consultants and certain other service providers. The maximum aggregate number of shares that may be reserved for issuance under the plan is 10% of the Outstanding Shares, less any common shares reserved for issuance under share options granted outside of this plan. Options are exercisable for a maximum of 10 years. Option shares are subject to vesting requirements as determined by the Company's Board of Directors.

The Company recognizes stock-based compensation expense for all stock options based on the fair value based method of accounting. The fair value attributable to options vesting during the period ended December 31, 2010 was \$48,130 (December 31, 2009 - \$23,443). No options were granted during the three months ended December 31, 2010 or the three month period ended December 31, 2009.

Stock option transactions and the number of stock options outstanding are summarized as follows:

At December 31, 2010, stock options were outstanding enabling holders to acquire shares as follows:

Number of Shares	Exercise Price	Number of options Currently Exercisable	Expiry Date
1,950,000	\$ 0.25	1,637,512	September 18, 2013
100,000	0.25	69,447	November 5, 2013
25,000	0.25	14,579	March 5, 2014
100,000	0.15	75,000	January 19, 2015
350,000	0.15	262,500	February 9, 2015
1,100,000	\$ 0.25	-	July 29, 2015

## 9. RELATED PARTY TRANSACTIONS

	For the Three Month Period Ended December 31, 2010		For the Three Month Period Ended December 31, 2009	
Professional fees to accounting firm in which officer is a partner	\$	18,427	\$	13,938
Travel expense to an affiliated company		4,279		-
Stock-based compensation to two directors, an officer and a director, and two officers		12,873		16,500

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

FOR THE THREE MONTH PERIOD ENDED DECEMBER 31, 2010

### **9. RELATED PARTY TRANSACTIONS** (cont'd...)

Due to Related Parties	December 31, 2010		September 30, 2010	
Affiliated company for advance royalties on mining leases and expenses paid on behalf of Company Company owned by an officer for professional accounting fees	\$	- 180	\$	51,449
Total due to Related Parties	\$	180	\$	51,449

The transactions with related parties were in the normal course of operations and were measured at the exchange value, which represented the amount of consideration established and agreed to by the parties. The amounts due to related parties are non-interest bearing, with no fixed terms of repayment. The fair value of the amounts due to related parties cannot be determined as there are no specific terms of repayment. Repayment is expected within the next fiscal year and therefore has been classified as a current liability in these financial statements.

#### 10. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

In December 2009, as part of the Company's private placement, a director, applied US\$70,650 of an outstanding US\$100,000 loan payable by the Company to the purchase of 1,500,000 Units at a price of \$0.05 per Unit. The remaining balance on the loan was replaced with a US\$29,350 promissory note (the "Note"), bearing interest at 14.6% per annum, beginning November 24, 2009 until paid. The Note which matured on March 31, 2010, was applied to the purchase of 198,548 Units at a price of \$0.15 per Unit in the Company's private placement closing in April 2010.

## 11. SEGMENTED INFORMATION

The Company operates in one reportable operating segment, being the exploration and development of resource properties. All of the Company's equipment and mineral properties are located in the United States.

#### 12. COMMITMENTS

The Company has entered into an operating lease agreement for its office premises in Auburn, California. The term of the lease is through December 31, 2012. The annual commitments under this lease are as follows:

Annual		
Fiscal Year	Commitment	
2011	\$ 40,882 (paid \$12,145)	
2012	\$ 42,114	
2013	\$ 10,606	

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

FOR THE THREE MONTH PERIOD ENDED DECEMBER 31, 2010

#### 13. NOTE PAYABLE

In March 2010, the Company received \$500,000 (USD) in exchange for a convertible promissory note. The note, which matures March 25, 2011, bears interest at 10% per annum and is convertible into units of the Company at a price of \$0.17 per unit. Each unit consists of one common share and one half common share purchase warrant. Each whole warrant entitles the holder to acquire an additional common share at \$0.25 per share, exercisable until March 25, 2011. Proceeds from the convertible promissory note were used to make an option payment on the Company's Golden Arrow mineral property (Note 6). The note is secured by a first charge over the Company's interest in the mining lease. In December 2010, pursuant to the loan agreement, the lender notified the Company of their intent not to exercise the conversion option on the loan.

The debt component of the convertible promissory note is calculated as the present value of the debt and required interest payments discounted at a rate approximating the interest rate that would have been applicable to non-convertible notes payable at the time the notes were issued. On issuance, the relative fair value of \$18,978 attributed to the equity component of the note was classified as the equity component of convertible notes payable.

#### 14. CONTINGENCIES

On February 29, 2008, a claim was filed in the Supreme Court of British Columbia requesting the Company pay damages arising from the work and effort expended by a third-party. The damages were not specified but the claimant previously demanded (i) the Company issue to the third-party 1,200,000 common shares; (ii) pay 2% of gross proceeds of a private placement and all funds raised in the Company's initial public offering, and; (iii) pay the third-party's out-of-pocket expenses. The Company believes the demands made are without merit and intends to vigorously defend the claim made. The Company's Chief Executive Officer is also subject to a claim relating to the same matters.

In 2007, the Company received a demand letter from a third-party claiming to have advanced funds through a separate entity. The third-party sought payment of US\$100,000. The Company believes the claim is without merit and will vigorously defend any claim made.
