### **NEVADA SUNRISE CLARIFIES GOLDEN ARROW PROJECT DISCLOSURE**

**October 7, 2013**, Vancouver, British Columbia – Nevada Sunrise Gold Corporation (“Nevada Sunrise” or the “Company”) (TSX-V: NEV) announced today that as a result of a review by the British Columbia Securities Commission, the Company is issuing this news release to clarify its disclosure on its website, corporate presentation, and in certain news releases regarding resource estimates at its Golden Arrow property, located near Tonopah, Nevada (the “Golden Arrow Project”).

#### **Retraction of Disclosure of Economic Analysis**

In a news release of April 1, 2009, and on the Company’s website, the Company made reference to the results of a preliminary internal scoping study. The Company wishes to clarify this statement and confirms that it has not prepared a Preliminary Economic Assessment (“PEA”). **The Company retracts any statements made regarding the results of a PEA or scoping study.**

The Company had, however, prepared and filed on SEDAR on May 15, 2009 a technical report dated May 1, 2009 entitled “Updated Technical Report on the Golden Arrow Project, Nye County, Nevada, USA”, by Mine Development Associates of Reno, Nevada, co-authored by Steven Ristorcelli, C.P.G., and Odin Christensen, Ph.D., C.P.G. (the “Technical Report”), with Mr. Ristorcelli being independent of Nevada Sunrise, while Mr. Christensen was not independent of Nevada Sunrise. The Technical Report supports the Mineral Resource estimates present at the Golden Arrow Project and incorporates all relevant technical information available at the time of publication which the Company still considers current. The Company cautions that there has been insufficient exploration to define any Mineral Resources other than what are described in the Technical Report, and that it is uncertain if further exploration will result in any exploration targets at the Golden Arrow Project being delineated as a mineral resource. Investors are referred to the technical information contained in the Technical Report.

#### **Non-Compliant Disclosure on Nevada Sunrise Website and in Corporate Presentation**

The corporate presentation previously posted on Nevada Sunrise’s website did not properly refer to the Mineral Resource categories at the Golden Arrow Project as fully-described in the Technical Report, in particular by combining contained ounces of gold in the Measured and Indicated categories. In addition, the Qualified Person responsible for reviewing and approving the technical content regarding the Golden Arrow Project was listed as Richard Kehmeier, C.P.G., such disclosure was not present in all areas of the website listing technical information, or in the corporate presentation. The Company has removed the corporate presentation from its website and has confirmed the necessary references to the Qualified Person throughout its website.

The Company also stated on its website under “Golden Arrow Highlights” that Golden Arrow had a “...*Potential multi-million ounce deposit (Oxide & Sulphide)*”. The Company retracts that statement

and removed it from its website on September 26, 2013. The Company cautions that there has been insufficient exploration to define any Mineral Resources other than what are described in the Technical Report, and that it is uncertain if further exploration will result in any exploration targets at the Golden Arrow Project being delineated as a mineral resource.
